KAIXIN

20 Years

PROFESSIONAL LEADING BRAND IN VETERINARY ULTRASOUND SYSTEM

20 YEARS KAIXIN IS ALWAYS WITH YOU

Powerful function & Configuration

· Large screen display
· Built-in lithium battery
· Small size, light weight, easy to carry, N.W. ≤ 5kg
· Equipped with a wide range of probes for
  abdominal,obstetric, vascular, cardiac, small organ,
  urinary applications
· A variety of digital peripheral interfaces, provides a
  variety of image output methods
· PC platform, easy to operate, meet various
  software upgrades

Rich clinical application function

· B+CF (Dual Images)
· B+CF/PDI/DPDI+PW (Triplex)
· Convex extended imaging technology
· Linear array deflection/Trapezoidal imaging technology,
· Spatial compound Imaging technology
· Panoramic imaging technology (optional),
· Speckle noise removal technology
· Pulse inversion tissue harmonic imaging technology (iTHI)

Optional probe

3.5MHz convex wide-band probe

6.5MHz micro convex probe

7.5MHz linear probe

phased array probe

Powerful image processing technology

15"LED

DCU20/30/50

Full Digital Color Doppler
Ultrasonic Diagnostic Instruments

DCU10
FULL DIGITAL COLOR DOPPLER
ULTRASONIC DIAGNOSTIC INSTRUMENTS (Vet)

Professional software for diagnosis of abdomen, cardio, OB, small parts, vessels, etc.
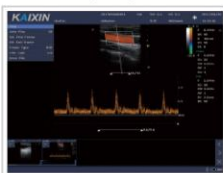

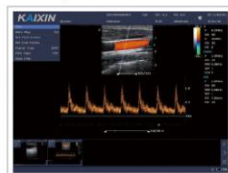

High resolution 15'LED

Back light keyboard

Main unit N.W：8.1Kg

Data store & software
· Powerful measuring & calculating software for clinical demands
· DICOM3.0
· Internal working station : support 500GB hard disk,search & browse patients data
· Support store JPG,BMP,FRM format and CIN,AVI movie format

Full digital imaging technology
· Multi-beam synthesis
· Real-time point-by-point dynamic focus imaging
· pulse inverse harmonic composite imaging
· Space composite imaging
· Image enhancement noise reduction

Standard configuration
· main unit (with a built-in 500G hard disk)
· 6.5MHz micro-convex probe
· 7.5MHz linear probe
· internal Li-battery

Optional configuration
· 3.5MHz mult-frequency convex probe
· 6.5MHz mult-frequency linear rectal probe
· USB report printer
· video printer
· trolley
· foot switch

🐾 Ultrasonic Diagnostic Instrument (Vet)

New

V1

Features

· Professional software to make veterinarians get the most convenient experience
· Diagnostic mode: 4 kinds (common diagnostic mode, support for customization).
· Backfat test software
· High resolution image quality
· Pretty durable & smart
· Working with sunshine-proof hanging bag or wrist glove
· 6 kinds of operation backgrounds for different visual habits
· Large capacity battery
· Water proof

V2

· Wireless connection to Pad/Mobile phone to transfer data, including images, records, etc
· Real time display with extra wireless monitor

🐾 W1/W2

B Mode Ultrasound Scanner(Vet)

· 80 Elements
· Size: 165×80×30 (mm，Length × Width× Height)
· Weight: 250g
· Wifi model: 802.11g/20MHz/2.4G
· Software support platform: Andriod
· Image frames rate: 12f/s

Product Standard configuration ：
· Main unit(Probe) 1 PC
· Charging Cable 1 PC
· APP
Gift ： Phone wristband

Phone wristband

🐾 RKU10
Veterinary B Mode Ultrasound Scanner

Probe extension

Soft rubber cover

Sunshine cover

The most convenient experience you never know !

· RKU10 is with light weight, long-time battery work, unique ring design, multiple use method, Very convenient for long-time using but eliminating operating fatigue, different probes available for different animals

360mins

High-capacity Li- battery, working time ≥ 360 mins

Available for alternative left/right hand use

1.1kg

Smart and light

5.7'

5.7' high resolution LED

🐾 KX5200
Veterinary B Mode Ultrasound Scanner

· Smart design, internal battery, KX5200 makes the diagnosis more convenient and brings you new mobile using experience

5.7'

180 min X 2

Weight of main unit : 1.1kg

Backfat inspection

Main unit splash-proof, dust-proof function

KAI XIN

Silicone base can fix the
main unit and probe

N.W : 1.5KG

200mins

Working time ≥ 200 mins

Hand-held operation,
smart and light

5.7'

New
screen
update

🐾 KX5100

Veterinary B Mode Ultrasound Scanner

· Professional veterinary software for quick diagnosis

· For both large animals & small animals with different probes

Four Applications: Wrist ,
hanging, desktop and
outdoor shading

Fully upgrade & HD image

Pregnancy and backfat test ,
show the scale of backfat ,
convenient for inspecting
visually the thickness of backfat

Probe
true
IPX7

IPX7 waterproof probe

English diagnosis interface
for Pregnancy test result

Automatically generate EXCEL
table to get the testing result

🐾 MSU1Plus

Full Digital Mechanical Sector Ultrasound Scanner

Working time > 360mins

Splash proof ,dust proof, easy to clean

Multiple using methods: hand-held,hanging

Available for alternative left/right hand use

VET MSU2

Full Digital Mechanical Sector Ultrasound Scanner
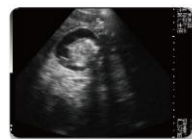

· Professional software for swine,ovine,and canine

· Quick diagnosis to save your time

Uterine Inflammation of Pig

Gravidity of Pig, 29 days

Gravidity of Pig, 48 days

Gravidity of Pig, 86 days

NEW

VET MSU3

Full Digital Mechanical Sector Ultrasound Scanner

· Very compact and lightweight, measure loin muscle thickness and lean percentage automatically

· Automatically filter out inappropriate waveforms,improve operational efficiency

· Streamlined data management software. Quick export measurement data.

· Auto-hide characters

· Back fat thickness measurement and get result quickly and intuitively.

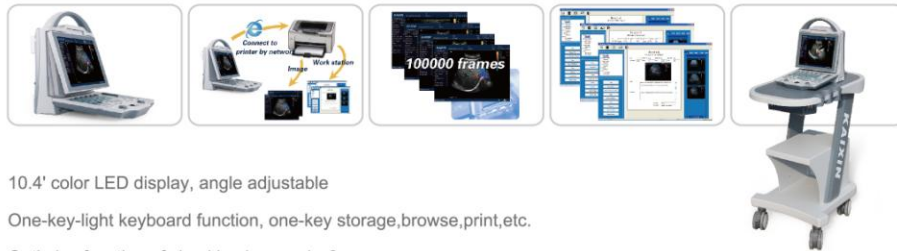

>300 mins

DCU12

Veterinary Color Doppler Ultrasound Scanner

· 10.4' color LED display, angle adjustable

· One-key-light keyboard function, one-key storage,browse,print,etc.

· Optimize function of checking image, 1s-2s response

· Built-in workstation templates:multi-case management, rapid data & report management

Economical Doppler System for your pets care!

KX5600

Veterinary B Mode Ultrasound Scanner

· Big display zone for large image size, with high quality

· Professional software for small animals

· Fast one-key operation: one-key storage,browse, etc.

· I-Station integral workstation,connect with network, one-key print

· Built-in workstation templates:multi-case management, rapid data & report management

K10

Ultrasonic Diagnostic Instrument(Vet)

New experience for large animals!

· 10.4' LED display   · Professional veterinary software

· Li-battery drive   · Convenient for both small & large animals
